

Quick-Acting Coupling Specifications

Applications

Agriculture • Chemicals • Petroleum • Construction • Material Handling • Irrigation • Fracking

Polypropylene

Features & Benefits

- All sizes except 1/2" comply with Mil-Spec A-A-59326 for interchangeability
- 1/2" x 1/2" are not specified under Mil Specs
- Polypropylene material is glass-filled for added strength and durability
- Locking feature using safety clips to prevent disconnection during use on all sizes except 1/2"
- All 4" size female couplers are supplied with three locking handles to provide added stability

Material Specifications

- Type 304 stainless steel handles
- Type 304 stainless steel handle pins
- Type 304 stainless steel pull rings
- Type 304 stainless steel safety clips
- EPDM gaskets

PSI Rating @ 70°F (+21°C)

1/2" - 2"	100 PSI
3" - 4"	50 PSI

Glass Reinforced Nylon

Features & Benefits

- All sizes comply with Mil-Spec A-A-59326 for interchangeability
- Nylon material is fiberglass reinforced for high tensile strength and durability
- Locking feature using safety clips to prevent disconnection during use on all sizes
- All 4" size female couplers are supplied with three locking handles to provide added stability

Material Specifications

- Type 304 stainless steel handles
- Type 304 stainless steel handle pins
- Type 304 stainless steel pull rings
- Type 304 stainless steel safety clips
- EPDM gaskets

PSI Rating @ 70°F (+21°C)

1/2" - 2"	100 PSI
3" - 4"	50 PSI

Ductile Iron

Features & Benefits

- All sizes comply with Mil-Spec A-A-59326 for interchangeability
- Coupling ID is specially designed for maximum flow of product
- Locking feature using safety clips to prevent disconnection during use on all sizes

Material Specifications

- Type 304 stainless steel handles
- Type 304 stainless steel handle pins
- Type 304 stainless steel pull rings
- Zinc-plated carbon steel safety clips
- BUNA gaskets

PSI Rating @ 70°F (+21°C)

4"	150 PSI
